

Daily luxury shuttle service between Windhoek and Etosha (via Okonjima)

Enjoy travelling in style and safety from Windhoek to Okonjima and/or the Etosha National Park (520 km) in the comfort and luxury of a modern VW T5 Multivan Caravelle 4motion, equipped with leather seats and multi zone climate control air conditioning (max six passengers). If necessary, excess luggage is transported in a trailer to utilise all available space within the vehicle for maximum legroom (45 cm!) and comfort.

You do not have to compromise on your personal Etosha experience by joining a tour group and you do not have to hire a car. Enjoy a unique and individual Etosha experience in one of the reputed Lodges of the Mushara Collection as your comfortable home away from home for as long as you wish. You can join guided game drives on offer in open game viewing vehicles whenever you choose. Why compromise on quality and time planning? Make the most of a truly unique game viewing experience and enjoy the tranquillity and the silence of the African bush. Due to demand we have extended our shuttle service to all the other lodges in the area (Onguma, Mokuti Kempinski and Aoba). Drop off and collection point is directly at the Von Lindequist Gate, eastern entrance gate to the Etosha National Park. Passengers are collected by the lodges at no extra charge. After your very individual Etosha experience you can enjoy our comfortable and relaxed shuttle service back to Windhoek.

The ultimate wildlife experience is a combined visit to Etosha and Okonjima, the home of the Africat Foundation! Passengers for Okonjima are met by an Okonjima Vehicle at the Okonjima Entrance Gate along the B1 Main Road 48 km south of Otjiwarongo. From here it is a further 24 km across the property to the respective camps. If there are no further passengers from Windhoek to Etosha or from Etosha to Windhoek, the Shuttle Minibus will also cover the 24 km distance from the Gate at the Main Road to the Okonjima camps.
